 To develop Qualification Packs (QPs) and National Occupational Standards (NOS)
 To develop the CBET Curriculum for Homecare aimed at streamlining the migrant labour movement in Kenya.

Lessons learnt: *Identify specifically what you are bringing back from the conference that relates to your departmental/school/University objectives.*

The most important critical lesson that I have brought to the Confucius institute is capacity building staff to align the already existing Diploma and Certificate programs into TVET as per university policy direction. With the experience gained in the conferences attended I have supported the institute to complete the alignment of Diploma in Chinese Language and Culture Level six which has been submitted for approval

Title of Paper/Presentations/Lectures done by self:
In this conference I guided the participants to conduct occupational analysis and then develop the CBET curriculum in Homecare management
Partnership/Collaborations/Funding Opportunities/Networks Developed: <i>List new contacts developed that may be useful for collaborations and funding</i>
The collaboration between ILO and NITA can be approached to support the Kenyatta university Directorate of TVET to come with new programs
Additional Comments.
This was a very rich experience for me which has enabled me to support the Confucius institute to come up with new programs.
